

# Test Execution Report

Project Name: Mobile Automation Assessment

Prepared by: Mohamed Elgendy

Date: August 16, 2024

Version: 1.0

## Table of Contents

- 1. [Introduction](#)
- 2. [Test Summary](#)
- 3. [Test Results](#)
- 4. [Analysis and Recommendations](#)
- 5. [Conclusion](#)

## Introduction

**Purpose:** The purpose of this report is to provide a detailed overview of the test execution activities for the Mobile App Testing Assessment.

### Test Objectives

- Verify that movie name in home screen should be the same in the movie screen.
- Verify that release date filter in the home screen should be the data in the future.

## Test Summary

### Test Execution Overview

- Total Test Cases: 2
- Test Cases Passed: 2
- Test Cases Failed: 0
- Test Cases Skipped: 0

## Test Results

### Detailed Test Results

Test Case ID	Test Description	Status	Defects Logged	Comments	Execution Date	Tester Name
TC01	Verify that movie name in home screen	Pass	N/A	-	2024-08-15	Mohamed
TC02	Verify that release date filter in the home screen	Pass	N/A	Analysis section.	2024-08-15	Mohamed

## Analysis and Recommendations

For the second test case, there is a conflict when I choose the release date and sort in ascending order, movies with past release dates appear, which creates a significant issue.

## Conclusion

The overall test execution was successful.
